EDUCATION

B.Tech in Artificial Intelligence & Data Science 2023-2027

GPA 7.5

Konkan Gyanpeeth College Of Engineering (Currently in 4th year - Sem 7)

WORK EXPERIENCE

(IBM SkillsBuild internship on Ai & Cloud Technologies) Learned cloud computing basics and explored AI tools like Watsonx during this virtual internship.

TECHNICAL SKILLS

Programming Languages: Python, JavaScript

Frameworks & Libraries: React, Tailwind CSS

Databases: MySQL, MongoDB,

Tools: Git, GitHub, Vercel , Render

PROJECTS

1. UrbanNest- Rental Listing Web Platform

[Demo](#)

Developed a full-stack web application for property listing and booking with authentication and database support. Implemented CRUD operations and deployed the platform online for real-world usage.

2. React Weather App

[Demo](#)

Developed a React application that integrates a weather API to display real-time weather

3. Spotify Clone

Built a front-end clone of Spotify featuring a responsive music player interface and playlist design using HTML, CSS, and JavaScript

CERTIFICATES & ACHIEVEMENTS

Getting Started with Artificial Intelligence -IBM

Journey to Cloud: Envisioning Your Solution -IBM

Build a free website with WordPress -Coursera
